Low maintenance acreage so close to Town!

Inside the property there is good segregation from the master bedroom to the remaining three generous bedrooms. The two living areas, one of which has a combustion heater are neutral in design and have an abundance of natural light. The guest bathroom has been newly renovated and is quirky and sleek in design, light, bright and colourful. The kitchen is compactly designed but well appointed and adjacent to alfresco dining. All rooms have been freshly painted and new carpets throughout.
